EDUCATION

University Poly-Tech Malaysia

Diploma in Computer Science

Kuala Lumpur, Malaysia

Graduation, December 2025

- **Concentrations:** AI Development and Web Application Development
- **CGPA:** 3.81/4.00, *Dean's List*
- **Related Coursework:** Object-Oriented Programming (OOP) (Java, C++), Web Application Development (HTML, CSS, JavaScript, React Native), Express & Full-Stack Application Development, AI Development & Integration (Watsonx.ai, LangChain, WxFlow), Database Systems (MySQL), UI/UX Design, Software Development Life Cycle (SDLC).

PROJECTS

Compiler's Assistant for Technical Enhancement (C.A.T.E.) – AI Agent Development

Kuala Lumpur, Malaysia

Founder & Lead AI Developer

Jan 2024 – Present

- Developed C.A.T.E., AI-powered assistant intergrade IBM Watsonx.ai, Wolfram Alpha API, LangChain, and WxFlow, interface built with React Native.
- Awarded **The Best Paper Award** at ICAR 2025: The 3rd International Conference on Cross-Disciplinary Academic Research, for excellence in AI-driven educational innovation.
- Secured **copyright ownership** of C.A.T.E. and deployed its pre-launch website via Vercel, expertise in **expertise in AI agent pipelines, prompt engineering, SaaS, and cloud-based full-stack deployment.**

GLOSEV Staff Portal System

Bangsar South, Malaysia

Full-Stack Developer & System Architect Intern

Aug 2025 – Present

- Developed a **full enterprise HR portal** using **PHP 8.4, MySQL, JavaScript (AJAX), and Tailwind CSS.**
- Built **secure RBAC authentication, SMTP email alerts, and cron-based automation** for real-time updates and notifications.
- Designed a **responsive glassmorphism UI**, optimized a **15+ table MySQL database**, and **deployed the system via company cPanel.**

EzFoodAdha – Food Delivery Website

Kuala Terengganu, Malaysia

Project Lead & Full-Stack Developer

Sept 2021 – Oct 2021

- **Developed** web-based food delivery system using **HTML, CSS, JavaScript, PHP, MySQL and XAMPP in VS Code.**
- Enable students at **SMKA Dato Haji Abbas** to order healthy canteen meals during the COVID-19 period.

National Champion – Minecraft Education Sustainability & Innovation Projects

Kuala Terengganu, Malaysia

Team Lead & Creative Technologist

Dec 2020 – Jan 2021

- Led **renewable energy project** in Minecraft Education Edition, **1st Place at the Negeri Kebangsaan Competition** for innovation and environmental research.
- Commissioned by the **Jabatan Pendidikan Negeri Terengganu** to create **digital portrait of the Chief Minister**, praised for creative excellence and technical precision.

WORK EXPERIENCE

Glosev Sdn.Bhd.

Bangsar South, Malaysia

Full-Stack Developer & System Architect Intern

Aug 2025 – Nov 2025

- **Solely engineered, documented, and deployed** Glosev's internal Staff Management System, now used company **integrating PHP 8.4, MySQL, JavaScript (AJAX), and Tailwind CSS.**
- Handled **live debugging and production deployment** on the company's **cPanel** server, resolving critical HTTP 500 errors, SQL mismatches, and session conflicts.

KEMENTERIAN PENDIDIKAN MALAYSIA (KPM)

Angkasapuri, Malaysia

Lead Technical Technician (Internship under Glosev Sdn. Bhd.)

Aug 2025 – Nov 2025

- Appointed as the **technical technician** for the **Junior Innovathon Competition**, organized by **KPM broadcast nationwide on RTM**, event's success relied entirely on my live scoring and system management.
- Engineered and operated a **Microsoft Excel-based judging system** compute and verify scores in real time during a live national broadcast.
- Worked directly with **KPM officials, RTM producers and celebrity juries**

SKILLS

Programming: Java, JavaScript, HTML, CSS, SQL, C++, React, Tailwind CSS, PHP.

Tools: Git, VS Code, MySQL, BlueJ, React Native, LangChain, IBM Watsonx.ai, Wolfram, WxFlow, AJAX.

Certifications: CompTIA Cloud+
