EDUCATION

University Poly-Tech Malaysia

Diploma in Computer Science

Kuala Lumpur, Malaysia

Graduation, December 2025

- **Concentrations:** AI Development and Web Application Development
- **CGPA:** 3.81/4.00, *Dean's List*
- **Related Coursework:** Object-Oriented Programming (OOP) (Java, C++), Web Application Development (HTML, CSS, JavaScript, React Native), Express & Full-Stack Application Development, AI Development & Integration (Watsonx.ai, LangChain, WxFlow), Database Systems (MySQL), UI/UX Design, Software Development Life Cycle (SDLC).

WORK EXPERIENCE

Glosev Sdn.Bhd.

Full-Stack Developer & System Architect Intern

Bangsar South, Malaysia

Aug 2025 – Nov 2025

- Solely **engineered, documented, and deployed** Glosev's internal Staff Management System, now **actively used company-wide**, built with **PHP 8.4, MySQL, JavaScript (AJAX), and Tailwind CSS**.
- Handled **live debugging** and **production deployment** on the company's **cPanel server**, resolving **critical HTTP 500 errors, SQL mismatches, and session conflicts**.

KEMENTERIAN PENDIDIKAN MALAYSIA (KPM)

Competition Data Technician (Internship under Glosev Sdn. Bhd.)

Angkasapuri, Malaysia

Aug 2025 – Nov 2025

- Deployed under a KPM official to **support Junior Innovathon, Malaysia's first nationally televised STEM** reality competition on TV1 and RTMklik with **2,000+ entries** student across Malaysia.
- Processed and validated **50 shortlisted teams**, resolving data duplicates, date conflicts, and field mismatches across student and project datasets using **Microsoft Excel**, synced live to projector during jury evaluations.
- **Attended closed production meetings** at **Angkasapuri** alongside senior RTM officials, serving as the sole data technician ensuring scoring accuracy through to live winner announcement.

PROJECTS

Compiler's Assistant for Technical Enhancement (C.A.T.E.) – AI Agent Development

Founder & Lead AI Developer

Kuala Lumpur, Malaysia

Jan 2024 – Present

- Developed **C.A.T.E.**, an AI-powered assistant integrating **IBM Watsonx.ai, Wolfram Alpha API, LangChain, and WxFlow**, interface built with **React Native**.
- Awarded **The Best Paper Award** at **ICAR 2025: The 3rd International Conference on Cross-Disciplinary Academic Research**, for excellence in AI-driven educational innovation.
- Secured **copyright ownership** of C.A.T.E. and deployed its pre-launch website via **Vercel**, demonstrating expertise in **AI agent pipelines, prompt engineering, SaaS, and cloud-based full-stack deployment**.

Glosev Staff Portal — Internal HR Management System

Full-Stack Developer & System Architect Intern

Bangsar South, Malaysia

Aug 2025 – Nov 2025

- Developed a **full enterprise HR portal** using **PHP 8.4, MySQL, JavaScript (AJAX), and Tailwind CSS**.
- Built **secure RBAC authentication, SMTP email alerts, and cron-based automation** for real-time updates and notifications.
- Designed a **responsive glassmorphism UI**, optimized a **15+ table MySQL database**, and **deployed the system via company cPanel**.

EzFoodAdha – Food Delivery Website

Project Lead & Full-Stack Developer

Kuala Terengganu, Malaysia

Sept 2021 – Oct 2021

- **Developed** web-based food delivery system using **HTML, CSS, JavaScript, PHP, MySQL and XAMPP in VS Code**.
- Enabled students at **SMKA Dato Haji Abbas** to order healthy canteen meals during the COVID-19 period.
